PROFESSIONAL SUMMARY

Data & AI Engineer with 7+ years of experience designing and implementing massive data pipelines, ETL integration with Informatica Cloud (IICS), Salesforce migrations, and process automation. Currently focused on applying Large Language Models (LLMs) and AI solutions to optimize enterprise workflows.

WORK EXPERIENCE

Data Analyst & AI Solutions

Nov 2025 — Present

Torres y Carrera — Madrid

- Internal process automation with AI-based solutions (LLMs, Claude & Gemini APIs)
- Implementation of modern AI tools to optimize business workflows
- Data analysis with Excel, Power BI, Power Query, and Power Automate
- Research and evaluation of innovative AI-driven technology solutions

Big Data Developer

Jul 2022 — Feb 2025

CAS Training — Madrid

- Scala code for execution reports and HDFS queries
- Data quality validation and temporary table management
- Python / Jupyter for data extraction and export
- Process monitoring with Control-M and ServiceNow

ETL Developer

Feb — Jul 2022

Pixie — Madrid

- ETL processes with IICS: Oracle to Salesforce data integration
- Initial and incremental load management with transformation and cleaning

ETL Developer

Apr — Nov 2020

VASS — Madrid

- Massive data migration with Informatica Cloud (Salesforce to Salesforce)
- Dependency-based transformation logic between records

Data Analyst

Apr 2019 — Apr 2020

Stratesys — Madrid

- ETL pipeline automation and data quality validation
- Advanced data processing with Informatica Cloud

QA & Cloud (Internship)

Mar 2018 — Apr 2019

Jump Data Driven — Madrid

- UI test automation with Ruby and Selenium
- AI algorithm integration support in AWS (EC2, ECS, S3, Athena)

TECHNICAL SKILLS

Data Integration & ETL	Informatica Cloud (IICS), SQL, Python, Spark, Cloudera, HDFS, Hive, Control-M
AI & LLMs	LLMs (Claude, Gemini, GPT), Claude API, Gemini API, Ollama, RAG, Multi-agents, Jupyter
Cloud & DevOps	AWS (EC2, S3, Athena, DynamoDB, Lambda), Docker, Linux, Git

BI & Automation	Power BI, Power Query, Power Automate, DAX
Databases	PostgreSQL, MySQL, Oracle SQL, T-SQL, MongoDB, DynamoDB
Other Languages	Java, Scala, JavaScript, PHP, Ruby on Rails

EDUCATION

Advanced Program in Artificial Intelligence

Feb 2025 — Jul 2025

Atrium — Certificate + Professional Internship

Intensive AI training: Linux administration, advanced Python, SQL & NoSQL, Machine Learning, Deep Learning, LLMs. Includes professional internship.

Higher Vocational Degree — Cross-Platform App Development

2016 — 2018

Object-oriented programming, data management, markup languages.

Big Data Development Course with Cloudera

2017 — 2018

Cloudera administration and development, Spark, Pig, Hive. Twitter data ingestion and visualization project.

LANGUAGES

Spanish: Native

English: B2 — Upper Intermediate
